Our Wedding Photography Services - 2012

First of all, a little bit about us...

We are full time, professional photographers - not every wedding photographer can say that.

We have been around a while now. Since 1988 to be exact, and since then have covered more than 2000 weddings - enough to be totally unfazed by whatever circumstances are thrown at us on your wedding day.

We are qualified members of two of the world's leading professional associations, The Society of Wedding & Portrait Photographers, and the Master Photographers Association.

We are also founder members of the Wedding Professionals Network

We only photograph one wedding each per day, so we sometimes get booked up very early.

We are not salespeople. We like to think that our work sells itself, so if you are not totally comfortable with us, our work, or our approach, we will not expect you to book us.

We believe in producing a relaxed, informal record of the day.

We also believe that if people are having fun, and having a laugh with us, we will get better photographs.

We stake our reputation on every wedding we cover.

We love a good coffee and a chat.

## Really Important! How much does it all cost?

It's easy peasy to work out prices. Just add things up from the three options below and overleaf.

Don't forget, ALL of our services include the following:

- > Erm, us. Our wealth of professional photographic experience. We know our stuff.
- > Our trademark mix of reportage, informal photography, and more organised 'official' shots.
- > Your own personal proof gallery on our website to share with friends and family.
- > A lovely cute set of 5x5 proof prints in a presentation box for you to keep.
- > Access to us for help, advice, reassurance & tea whenever you want in the run up to your day.
- > Pre wedding consultation to discuss final details.
- > All of your images on CD, copyright free with every album or book.
